- High-definition infrared night vision
- Motion detection
- Red and blue warning lights
- 2.0-inch high-definition colour screen
- Up to 14 hours battery life
- Built-in 1650mAh battery
- Full-speed Type-C 2.0 USB interface
- Custom logo supported
- Collection station management software can be included

Product Overview:

The H80A is a single-piece body-worn recorder for officers who need evidence captured from the moment an encounter begins. One press of the record key starts 1296P recording, and audio capture begins automatically as soon as the unit is switched on, so the opening seconds of an incident are not lost.

A 145° wide-angle lens, high-definition infrared night vision and motion detection cover a wide range of field conditions, while the built-in 1650mAh battery supports up to 14 hours of use — the longest endurance in this range. Integrated red and blue warning lights give a visible presence indicator.

Collection station management software can be supplied for centralised offload, and custom logo marking is available for department or distributor programmes.

Specification:

Model	H80A
Type	Body-worn audio and video recorder for law enforcement
Maximum Resolution	1296P
Video Format	MP4 (H.264 compression); supports up to 1080P Full HD at 30fps and 1296P Ultra HD configurations
Field of View	145° wide angle
Night Vision	High-definition infrared
Motion Detection	Supported
Recording Start	One-key start recording
Audio Recording	Begins automatically when the unit is switched on
Pre-record / Post-record	Supported (Captures up to 30 seconds of pre-event buffer audio and video before the record key is pressed)
Display	2.0-inch high-definition colour screen
Warning Light	Red and blue
Internal Storage	64GB to 128GB variants available (Supports loop recording via Class 10 High-Speed MicroSD / TF expansion slots)
Battery	Built-in 1650mAh
Battery Life	Up to 14 hours
Charging	Via Type-C port or supplied charger
Interface	Type-C, USB 2.0 full speed
Management Software	Collection station management software can be included
Wearing / Mounting	Shoulder clip supplied as standard
Dimensions	57mmx80mmx22mm
Net Weight	130 grams
Ingress Protection	IP68 (Dust-tight and protected against continuous immersion in water up to 2 meters)
Operating Temperature	-25°C to +55°C (-13°F to 131°F) under a relative humidity of 15~85%
Warranty	1 Year Standard Manufacturer Warranty
Agency Approvals	CE, FCC, and RoHS compliance certifications
What's in the Box	Data cable, charger, shoulder clip, certificate of conformity, warranty card
Packing Details	40 pcs per master carton; 50 x 32 x 28 cm; 14.5 kg gross; 0.0448 CBM
